DETAILED ACTION

1. This Office Action is made in response to applicant's amendment filed on 4/10/2006. Claims 1, 2, and 4-10 are currently pending in the application. An action follows below:

Allowable Subject Matter

2. Claims 1, 2, and 4-10 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a touch panel device using a cellulose film with a specific hardness and other components. Independent claim identifies the uniquely distinct features "the cellulose film has a retardation value of 20 nm or less and an absorption axis of the polarizing film is placed so as to make an angle of 20° or higher but lower than 70° to a slow axis of the cellulose film and the retardation plate".

The closest prior art, Fuji et al. (USPN: 6611299) and Koike et al. (USPN: 6965191) disclose touch panels with cellulose layers, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven E. Holton whose telephone number is (571) 272-7903. The examiner can normally be reached on M-F 8:30-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Amr Awad can be reached on (571) 272-7764. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
